

# 500 Series "H" Frame Chair

## Frames

All tubular design, 1" diameter 18 gauge tubing legs and back tube (models 512/514/516) with chrome quality 1" 16 gauge utilized on the 518 series. All frames are metallic arc welded with a series of "stitch welds" on each seat assembly.

Chrome plated finish using 1" self adjusting glides. There are four different models; 512, 514, 516, 518. The last two digits of each model number are how high the seat sits off the ground. For example the 512 sits 12" off the ground.

## Glides

1" diameter, short ferrule, Nevermar glides, with steel ball joint swivel. Nylon, steel, and adjustable glides are available upon customers request.

## Seat & Backs

5/8" thick posture consulted solid molded melamine plastic with smooth molded edges and permanent color throughout thickness.

## Seat & Back Colors

- navy blue • blue • burgundy • sand • teal • charcoal • black • cranberry • light grey

## Available Options

- Bookrack available on models 516, and 518
  - Backpack hooks
- Metal inserts available in the seat & back upon request

## Warranty
