

600 Series Stacking X Brace Chair

Frames

All tubular design, 1" diameter 18 gauge tubing legs and back tube (models 612/614/616) with chrome quality 1" 16 gauge utilized on the 618 series. All frames are metallic arc welded with a series of "stitch welds" on each seat assembly. Chrome plated finish using 1" self adjusting glides. There are four different models; 612, 614, 616, 618. The last two digits of each model number are how high the seat sits off the ground. For example the 612 sits 12" off the ground.

Glides

1" diameter, short ferrule, Nevermar glides, with steel ball joint swivel. Nylon, steel, and adjustable glides are available upon customers request.

Seat & Backs

5/8" thick posture consulted solid molded melamine plastic with smooth molded edges and permanent color throughout thickness.

Seat & Back Colors

- navy blue • blue • burgundy • sand • teal • charcoal • black • cranberry • light grey
